SAKIL HASAN SAIKAT

Cybersecurity Researcher | Ethical Hacker | Pentester | CVE-2024-49054 Owner

Khulna, Bangladesh | +8801790371317 | 0xsaikat@hackzar.com | linkedin.com/in/0xsaikat | github.com/0xSaikat

PROFESSIONAL SUMMARY

Cybersecurity researcher and ethical hacker with a proven track record of identifying and responsibly disclosing critical vulnerabilities across global organizations. Credited with CVE-2024-49054 by the Microsoft Security Response Center and recognized with 30+ Hall of Fame honors from organizations including Microsoft, Apple, Google, NASA, Oracle, NVIDIA, the WHO, the U.S. Department of the Treasury, Stanford University, the BBC, and EU CERT, spanning 15+ countries. Founder of HackZar and developer of open-source security tools — Pluto AI, FindME, and Penstaller — adopted by the global infosec community. Serves as a NIST NICE Cybersecurity Career Ambassador and Intel Student Ambassador, advancing digital security through applied research, automation, and responsible disclosure.

KEY METRICS

30+ Hall of Fame | **1** CVE Assigned | **15+** Nations | **CVE-2024-49054** Owner

CERTIFICATIONS

- **Certified Network Security Practitioner (CNSP)** *(Jan 2025)*
- **Certified AppSec Practitioner (CAP)** — SecOps Group
- TryHackMe Advent of Cyber 2024
- Cybersecurity Fundamentals — Palo Alto Networks
- Foundations of Cybersecurity — Cybrary
- Cybersecurity — Cybrary
- **23+** total certifications on LinkedIn

TECHNICAL SKILLS

- **Security Testing:** Penetration Testing & VAPT, Web Application Security, Network Security Assessment, Vulnerability Research & CVE, Red Teaming & Exploit Dev
- **Specialized Areas:** OSINT & Digital Reconnaissance, Bug Bounty Research, API Security Testing, Security Automation, Responsible Disclosure
- **Programming:** Python (Security Scripting), PHP / Laravel 11, JavaScript & React, Bash/Shell Scripting, FastAPI / Node.js
- **Reconnaissance:** Subfinder, Katana, Nuclei, Amass, FFUF
- **Web Testing:** Burp Suite, OWASP ZAP, SQLmap, git-dumper
- **Network:** Nmap, Metasploit, Wireshark, Nessus
- **Platforms:** Linux, Docker, Git, HackerOne, Bugcrowd

PROFESSIONAL EXPERIENCE

Penetration Tester — Neosaver | *June 2026 – Present · Khulna, Bangladesh (Hybrid)*

- Conduct web application and network penetration tests to identify critical security vulnerabilities
- Produce detailed vulnerability assessment reports with actionable remediation guidance

Campus Ambassador — bdapps (Robi Axiata) | *January 2026 – Present · Khulna, Bangladesh (Hybrid)*

- Promote developer programs and digital innovation initiatives across the university campus

Founder & CEO — HackZar | *2026 – Present · Remote · hackzar.com*

- Founded HackZar, a next-generation bug bounty platform competing with HackerOne and Bugcrowd

Prompt Engineering Intern — Oleyn AI | *December 2025 – April 2026 · Singapore (Remote)*

- Designed and optimized AI chatbot prompt systems for production deployments on the Shrobon platform
- Developed 20+ structured prompt sections for AI assistants using advanced prompt engineering techniques

NICE Cybersecurity Career Ambassador — NIST (National Institute of Standards and Technology) | *August 2025 – Present · United States (Remote)*

- Represent NIST's NICE framework to promote cybersecurity career pathways among students and professionals
- Advocate for structured cybersecurity education and workforce development initiatives

Campus Ambassador – Cybersecurity Outreach — Infosec BD | *September 2024 – Present · Dhaka, Bangladesh (Remote)*

- Lead cybersecurity awareness initiatives and workshops within the university ecosystem
- Mentor emerging cybersecurity professionals and foster ethical hacking community development

Security Tools Intern — Brainwave Matrix Solutions | *June 2024 – July 2024 · Dhaka, Bangladesh (Remote)*

- Built PassCheck (password strength evaluator with compromised credential detection) in Python
- Built DP-Links (phishing URL detection tool) — both published under the HackZar brand on GitHub

Independent Security Researcher — Bug Bounty Programs (HackerOne, Bugcrowd, VDPs) | *2023 – Present · Remote*

- Earned CVE-2024-49054 from Microsoft — co-authored with Sazzad Mahmud Tomal; second consecutive Microsoft finding
- Achieved 30+ Hall of Fame recognitions from Fortune 500 companies, government agencies, and universities across 15+ countries
- Recon workflow: Subfinder → httpx → Nuclei → Katana with XSS payloads and Google dorks as primary techniques
- Notable: NASA Broken Access Control (P3), WHO (4 accepted), U.S. Treasury, UNICEF, Dell, BBC, Apple, NVIDIA, Google Dragon Badge (2024)

KEY PROJECTS & TOOLS

Pluto AI — AI-Powered Code Security Analyzer

- Tech Stack: Python, FastAPI, React/Vite, Claude API, OpenAI, Ollama · PyPI: pip install pluto-ai · github.com/0xSaikat/pluto-ai
- CLI tool using AI to detect SQL Injection, XSS, hardcoded secrets, CSRF, and command injection across 11+ languages. Supports file, directory, and GitHub repo scanning. Generates reports in Terminal, PDF, JSON, and Markdown. Features safe package scanning via pluto pip install and pluto npm install.

FindME — Social Media OSINT Discovery Tool

- Tech Stack: Python, CLI, API Integration · github.com/0xSaikat/findme · Featured on Google Code Wiki
- CLI-based OSINT tool to discover social media and online profiles linked to a username across 400+ platforms including GitHub, HackerOne, and Discord. Used for digital footprint analysis, identity verification, and cybersecurity reconnaissance.

Penstaller — Automated Pentesting Toolkit Installer

- Tech Stack: Python, Automation, Package Management · github.com/0xSaikat/penstaller
- One-command installer for essential bug bounty and penetration testing tools covering recon, fuzzing, and vulnerability scanning. Standardizes testing environments for security professionals.

NUBTK CSE Semester Fee Portal

- Tech Stack: Node.js, JavaScript, Web Security · github.com/0xSaikat/NUBTK-semester-fee
- Full-stack web application to simplify semester fee payment tracking for NUBTK university students, featuring secure payment management and a user-friendly interface.

RECOGNITION

- **Technology Giants:** Microsoft, Apple, Google, Oracle, NVIDIA, SAP, Siemens
- **Government & Int'l Orgs:** NASA, U.S. Treasury, NSF, WHO, UNESCO, EU CERT
- **Universities:** Stanford, Drexel, Utrecht, Sheffield, UT Austin, Turku
- **Enterprise & Media:** Unilever, Dell, BBC, UNICEF, Adyen, Zyxel, Prague Airport

LEADERSHIP & VOLUNTEERING

Host — Hacktoberfest | *October 1 – October 31, 2026*

- Science and Technology Hacktoberfest Hack Day Khulna x HackZar

Office Secretary — Computer & Informatics Skill Club (CISC), NUBTK | *2023 – Present*

- Manage club operations, coordinate cybersecurity workshops, and facilitate technical knowledge-sharing events within the university community.

Team Lead — Bangladesh Scouts | *January 2016 – December 2018*

- Led a team in community service and social development initiatives across a 3-year tenure.

EDUCATION

- Bachelor of Science — Computer Science & Engineering (CSE) — Northern University of Business & Technology Khulna (NUBTK), Khulna, Bangladesh | March 2023 – March 2027 (Expected Graduation)
- Higher Secondary Certificate (HSC) — Science — Cantonment College Jashore | June 2019 – December 2022 | GPA: 4.92/5.00
- Kashimari Ideal School and College - Secondary School Certificate (SSC) | GPA: 5.00 / 5.00
